

Flight Information Display System

ECLIPSE™-Web

Enhance Customer Satisfaction. Improve Communication.

ECLIPSE-Web, Com-Net's latest addition to the ECLIPSE family of products, is a Web site for your airport that you can customize to fit your customers' needs. Your customers will be able to access real-time Flight Information via the Internet and will also have the choice to be notified via their computer, cell phone, or PDA every time the status of their flights changes.

ECLIPSE-Web gives your customers the ability to:

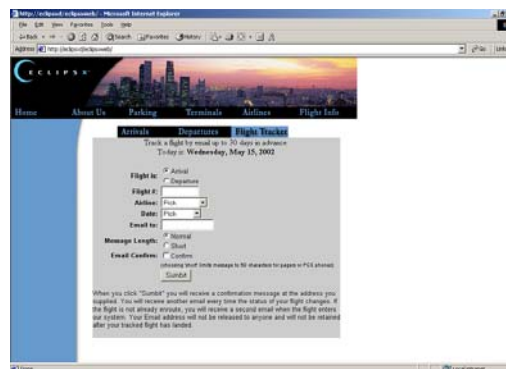

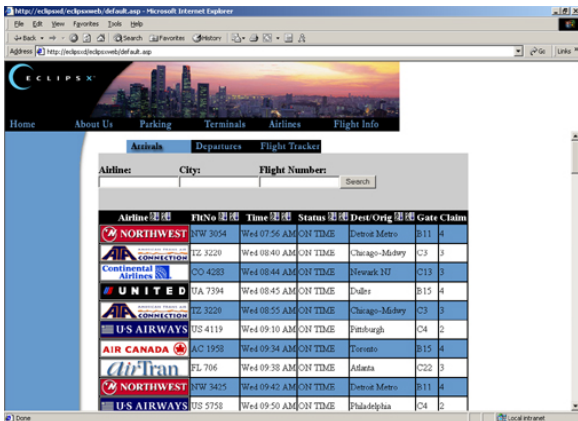

- Access real-time Flight Information from home, work or en route to the airport
- Sort flight information easily by City, Airline, or Flight Number
- Request e-mail notification of flight status
- Learn information about the airport including
 - Parking
 - Airport site maps
 - Airport history
 - Airline and vendor Information

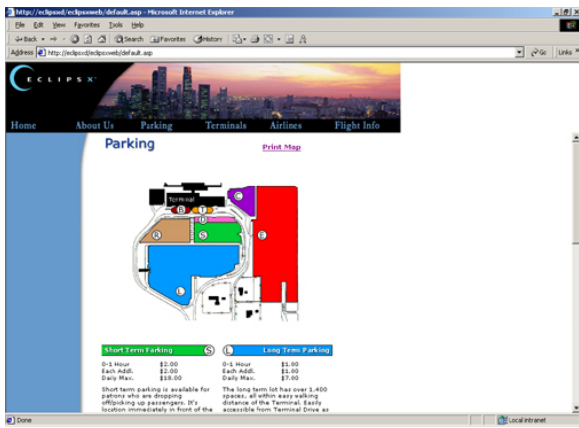

Real Time Updates

With ECLIPSE-Web, the information on your Web site will always be as current as the information on your MUFIDS monitors. The user interface easily allows customers to search for arriving or departing flights by airline, city or flight number.

Tracking Flights

ECLIPSE-Web allows your customers to track the status of their flights via e-mail notification. By registering, customers receive notification whenever the MUFIDS system is updated for flight status.

Information At Your Customers' Fingertips

Make it easy for your customers to learn information about your airport. With ECLIPX-Web, you can tailor your web site to fit your customers' needs. Passengers can access up-to-the-minute flight information, airport map, terminal layout, as well as parking maps and rates. Customers can effortlessly discover everything they need to know about your airport to make their visit successful, and their experience satisfying.

Versatile Information Display Products

The ECLIPX product family has been designed to respond to your changing needs with flexibility and ease. Com-Net offers you not just a new Web site module but also integrated solutions for information display, seamless connection to other systems, reporting, advertising scheduling and tracking, Web integration, and wireless access.

Contact your Com-Net representative today to see how ECLIPX can work for you.
